INTRODUCTION

LOS ANGELES DIRECTORY CO., publishers of the Monrovia, Arcadia, Duarte Directory, as well as many other city and county directories, present to subscribers and the general public, this the 1944 edition of the Monrovia, Arcadia and Duarte Directory.

Confidence in the continued growth of the communities' wealth and population, and in the advancement of municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting the community to the world.

The enviable place occupied by Los Angeles Directory Co.'s directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Monrovia, Arcadia and Duarte Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Monrovia is 16,500, based on the number of individuals' names in alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Arcadia is estimated at 15,750, and of Duarte 1,800.

Five Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Monrovia is included in pages 13 to 212, on white paper. A similar list for Arcadia is contained in pages 265 to 416, and Duarte in pages 465 to 488.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE for Monrovia covers pages 213 to 264, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ◉ placed immediately after the name of the householder. The symbol △ preceding name denotes householders and places of business having telephones. A similar guide for Arcadia is contained in pages 417 to 464.

THE BUYERS' GUIDE of Monrovia, opposite page 488 and separately paged from 1 to 64, on golden rod paper, contains the advertisements of leading manufacturing, business and professional interests of Monrovia. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Monrovia the necessity of having this kind of information immediately available, is very great and, frequently, pressing.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 489 to 584, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY for Monrovia is given in pages 585 to 610, and Arcadia in pages 611 to 636, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence and as a business location. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of the community, for business men, everywhere, realize that the city directory represents a community as it really is.

The Monrovia Directory Library

Through the courtesy of the publishers of the Monrovia, Arcadia and Duarte Directory, a Directory Library is maintained in the offices of the Monrovia Chamber of Commerce for free reference by the general public. This is one of the more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

Monrovia is located 18 miles northeast of Los Angeles on Foothill Boulevard, a part of the National Old Trail, at the base of the Sierra Madre Mountains overlooking the San Gabriel Valley. The elevation is from 450 to 1,200 feet, with an estimated population, as of January 1, 1944, of nearly 15,000 people.

Monrovia is on the main line of the Santa Fe, a branch line of the Southern Pacific and the Pacific Electric railways, with through bus service to all points. Location, transportation, reasonable real estate values, ideal living conditions, excellent educational facilities and an adequate supply of labor make Monrovia exceptionally well adapted for homes or industries.

Monrovia is internationally known as a health resort, and is the home of the Pottenger Sanatorium, famous for its successful treatment of tuberculosis.

A Chamber of Commerce that is well equipped and glad to be of service to visitors, and to its community, will furnish specific information upon request.

MONROVIA
Directory of Householders
Occupants of Office Buildings and Other Business Places
Including a Complete
Street and Avenue Guide
1944

Copyright, 1944, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Symbol 🔔 preceding name denotes householders and places of business having telephones.

ARCADIA

Arcadia is the home of Santa Anita.

Rancho Santa Anita one hundred years ago was the beginning of today's Arcadia.

Arcadia is the home of Arcadia County Park, 185 acres of beautifully developed recreation grounds providing most every kind of popular outdoor sports. One of the finest 18-hole golf courses in California, large swimming pool, tennis courts, lawn bowling, regulation baseball field with 4,800 capacity grandstand, and many other sports, with a 30-acre picnic grounds.

Northwest across the boulevard from the Recreation Park is Santa Anita Race Track, 405 acres of grounds, track, stables and parking. It is conceded the most beautiful racing plant in America, and the largest purses in the nation are paid at its winter racing meet.

The Pony Express Museum contains a vast collection of early California relics, appealing to all who love the romance of early western history. It adjoins Arcadia County Park, reached by Pacific Electric Railway.

Arcadia offers a great deal to the family seeking the quiet of suburban life, without the exorbitant costs of so-called exclusive districts. Several fine boulevards provide a 30-minute drive to Los Angeles, with the driver's back to the sun both morning and evening. Interurban cars run frequently in 42 minutes.

The average homesite is from one half to five acres and the average cost of houses constructed during the past years is approximately $5,000.00

Its rapid growth of the past few years is the best evidence of its attraction for those seeking the quiet of suburban life, in surroundings of natural beauty.

Turn two pages for statistical information of interest about Arcadia.

Directory of Householders

Occupants of Office Buildings and Other Business Places

Including A Complete

Street and Avenue Guide

1944

Copyright, 1944, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled with the Named Streets in alphabetical order.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding name denotes householders and places of business having telephones.

TRADE! You Like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

Common Sense About City Directory Circulation . . .

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore —

1000 x 3½ x 305 = 1,067,500

When People "Want"!!

THEY LOOK IN THE

CITY DIRECTORY

(CLASSIFIED SECTION)

Is your name under the commodity they seek?

If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.

Hadn't you better investigate your omnipresent city directory and convince yourself of how it can help your business?

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

Don't Contribute to Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*	Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine	Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*	Saw-tooth points around rim are usually uneven, broken off.
	Genuine	Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*	Poorly printed, badly spaced, uneven in appearance.
	Genuine	Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*	Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine	Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Published in Cooperation with United States Secret Service Treasury Dept.
